Planning for Ecosystem Services provision in Gurgaon

Chetan Agarwal
Environmental Analyst
Natural Assets:
Provide ecosystem services

• Contribution of Natural assets/Ecological assets as opposed to built assets.
  – Groundwater recharge
  – Biodiversity habitat
  – Wildlife corridors
  – Micro habitat
  – Forest cover - air quality benefits
  – Temperature control

• Natural assets the base on which built environment is based.
Is this a forest?
Regional Plan 2021
Options

• Commonlands - MCG – Aravalli areas
• Natural Conservation Zones
• (limit on construction of 0.5%)
• Recharge zones
• Conservation Reserves
• Protected/Reserved Forests
• Sanctuary
• % of forest area in MCG / HUDA / Gurgaon
